30						

June is "National Safety Month" and ordinarily, the focus may be on workplace safety or other settings. This month, we will be focusing on something that unfortunately hits very close to home and that is, violence in our community. Far too many

people are dying for senseless reasons. This sadly includes children who have been robbed of the chances that we all had to grow, learn, and find out who they are and what they wanted to do in life. Families permanently traumatized by these tragic losses and forever changed. There will be presentations on innovative conflict resolution methodologies, community-based programs, and what each of us can do to help reduce violence in the Kansas City Metro area. The daily violence that our youth are subjected to is unacceptable and presents as a true disaster for our communities and the future. It needs to stop. Please join us for these powerful presentations!
