In February, the SOC will continue its theme, "Create Don't Wait," and focus on community assets that identified problems and developed solutions. These solutions have saved countless lives in multiple ways, yet they are not nearly as well-known as they should be. There will be speakers about organizations and resources right here in our community talking about their many programs and supports all designed to keep or get children and families on the right track, so they don't just survive, THEY THRIVE! One such presentation will be from Michelle Noris, President and Co-founder of Corey's Network, an organization that provides immediate support, advocacy, and services to surviving victims of homicide. Other presentations will be given on organizations that provide some of our communities' most urgently needed resources, which are in high demand and often hard to find!
