

MEMC and CDRN Annual Joint Meeting

Thursday November 13th, 2025 from 1:00PM – 4:00PM

Are you a community-based, faith-based, childcare, healthcare, or other organization serving a vulnerable population that wants to learn more about emergency preparedness and have an opportunity to meet those who will respond to your potential emergency in the future?

If so, join us on Thursday, November 13th from 1:00PM – 3:30PM for an event hosted by the Metropolitan Emergency Managers Committee and the Community Disaster Resiliency Network. Networking until 4:00PM

In Summer 2026, the Kansas City Region will host matches for the FIFA World Cup — bringing major crowds, international attention, and increased demand on our local infrastructure. **Join us** for a regional planning session focused on continuity of operations and emergency preparedness. We'll explore potential impacts including:

- Public transportation disruptions
- Delays in supply and delivery
- Strain on medical transport and healthcare access

This is a collaborative opportunity for **community organizations, emergency managers, the Healthcare Coalition**, and others who support individuals with **access and functional needs** — including older adults, people with disabilities, and children. Let's plan together to keep our communities safe and supported during this high-impact event — and beyond.

REGISTRATION: The event is free to attend, but registration is required.

The deadline to register is Friday, November 7th, 2025.

If you have questions, please email vphillips@marc.org.
